Remote control and remote maintenance (REMOTE)

Features

Control your Maurer-Atmos production system via Android Smartphone, iPhone or iPad.

The perfect addition to the Maurer-Atmos TITAN 2 Windows Software or MIPAS is the Teamviewer remote control app. With Teamviewer you can control your Maurer-Atmos production systems via Android Smartphone, iPhone or iPad.

This solution also supports Maurer-Atmos technicians to provide you with online assistance.

Instruction

Just install the Teamviewer app on your mobile device and connect to the Internet on a Windows PC in your company. You will have an immediate overview of the production systems by the TITAN 2 or MIPAS Software.

There are three requirements to use the remote control app:
1. A Windows PC with TITAN 2 or MIPAS software interfaced with the production systems and an Internet connection.
2. Android Smartphone, iPhone or iPad
3. Teamviewer Software
